Experience

Full Stack Developer Hyderabad, India
QIS College of Engineering and Technology (Academic) Sep 2023 – Present
• Built and shipped full-stack applications using the MERN stack across 3+ group projects, owning end-to-end feature delivery from API design to frontend integration.
• Led backend development, architecting RESTful APIs with JWT-based security, structured error handling, and clearly separated service layers.
• Conducted peer code reviews and practiced Agile/Scrum with sprint-based planning, enforcing reusability and separation of concerns across the codebase.

Freelance Web Developer Remote
Confidential Startup Client (NDA) Jun 2026 – Jul 2026
• Independently designed, built, and deployed a responsive business/marketing website end-to-end for an early-stage startup client, from requirements to production deployment.
• Delivered a fast, mobile-friendly site with clean UI/UX, cross-browser compatibility, and SEO-conscious markup, managing the full project timeline solo.

Projects
